Comments:

1. Footpath clearly marked throughout.

2. Footpath through fields clear and easy to follow.

3. Path through woods was overgrown and not easily passable so walked around – however this is not a public footpath).

4. Entrance to path through to field that leads directly to Thrussington Bridge was overgrown – note a lot of dog walkers take the path through this field - this is not a public footpath.

Nice view of the church – although a little hazy!!
